

ARCHITECTURE ENGINEERING MATH

By Kids In Design
www.kidsindesign.com

Fall semester 2023, PS 6

Dismissal- 5:00 pm

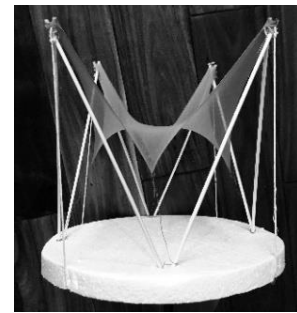

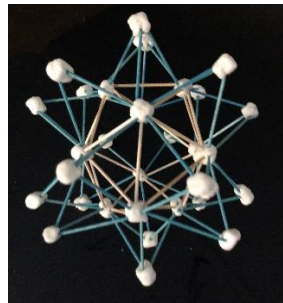

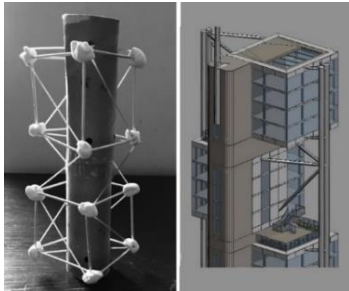

Wednesdays, Section 1: Grades 3rd- 5th
Wednesdays, Section 2: Grades K-2nd

PS 6, on site, in person.

Many celebrated architects in history (Pythagoras, Vitruvius, Michelangelo, Leonardo) were also remarkable engineers, mathematicians, and inventors. This course teaches critical skills and thinking in the same cross-disciplinary spirit. We are introducing students to a variety of overlapping ideas in architecture, engineering, and math. Each concept is presented along the hands-on project. The course fosters the ability to recognize complex mathematical patterns and creatively solve challenging real-world problems.

Kids In Design program has partnered with other top NYC schools such as Hunter College, Nest +M, Lower Lab, Avenues, The School at Columbia University, Trevor Day, Salk, and many others.

Cost \$695
