AMUSEMENT PARK ENGINEERS

Design, build, and test your dream amusement park and all the rides in it! Can you imagine and build new and exciting rides? Do you know what makes the famous rides work?

Discover how the simple engineering principles behind the merry go round, pendulum, and seesaw, power such incredible rides as the rollercoasters, the Ferris Wheel, the Pirate Ship, or the Scream Machine.

Tickle your brain power and have a blast in every class!
